SUMMARY

Hello! My name is Tianyu Wang, I go by Ella. I am a 3D artist with a background in 3D Animation from Pratt Institute. Pratt's program trained me as a well-rounded **3D generalist**, giving me experience across modeling, texturing, lighting, and animation. Through my coursework and personal projects, I've developed a strong foundation in creating visually engaging 3D assets while maintaining efficient, production-ready workflows.

I am especially interested in **environment modeling**, where I enjoy building immersive spaces and detailed scenes that support storytelling and world-building. I'm eager to continue growing my skills, learn from industry professionals, and contribute creatively as a 3D generalist or environment artist

EDUCATION

Bachelor's Degree in 3D Animation (in progress)

Pratt Institute GPA3.9

📅 2023 - 2027 📍 New York City, NY

LANGUAGES

- English Fluent
- Chinese Native

ADDITIONAL SKILLS

Unreal Engine、Houdini
Light python coding
Traditional Drawing Skills
Digital Drawing Skills
Character Design
Concept Art、Storyboarding,
Texturing & UV Mapping,
Color Theory、Composition,
2D Workflows、3D Workflows
Video editing、Montage and Continuity
Lighting and rendering
Using Cameras
Collaboration & Communication

SOFTWARES

Premier Pro, Maya, Blender, ZBrush,
3D Substance Painter, 3D Substance Designer,
Nuke, Photoshop, Imovie, Adobe animate, Adobe
illustrator, Lightroom, Acrobat Pro, Procreate,
Procreate Dream

EXPERIENCES

Sparkle Animation, Hangzhou, China
3D modeler | June-August 2025

- Contributed to an airline flight safety animation project, creating detailed 3D models of Chinese architectural buildings in a realistic visual style.
- Modeled high- quality assets for Sanrio TV shows, ensuring alignment with brand style and production requirements.
- Collaborated with animators and post-production team to optimize models for rendering and animation pipeline efficiency
- Applied technical precision and concise communication at professional industry standards

Computer Lab Assistant | Pratt | 2024-2025

- Assist with software troubleshooting in Adobe softwares
- Guidance on digital tools
- Demonstrating strong communication skills by adapting to individual students' needs
